I'm taking note of the color gradients and the grain for my site.

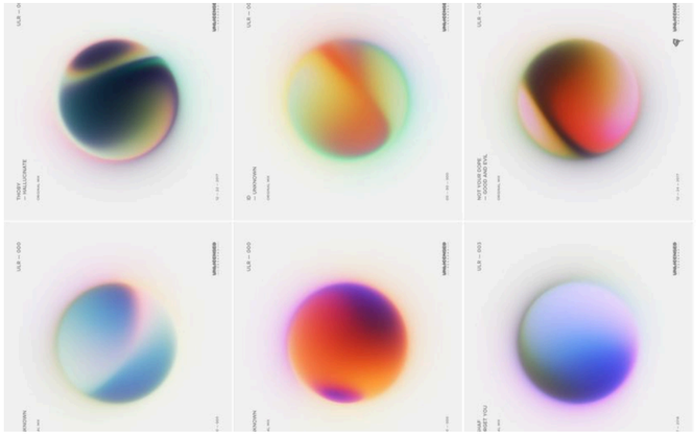

I'm going with this typography, grain texture, and color palette for my site.

I am opting for symbols, square shapes, and a play on textures for my website.

What stands out to me is the Liquid Glass, the variations in gradients and color nuances, the textures, and the blur combined with grain.

Minimalist typography with variations in weight and size: Inter
https://fonts.google.com/specimen/Inter?query=Inter

Vibrant color gradients that blend into one another with a sense of dynamism

Grain and blends
